

Evidence for Practice Sessions for NMC Revalidation

***Are you a nurse or midwife who is revalidating?
Do you wish to log some CPD or complete a
reflective practice account?***

Then the Library and Knowledge Service can provide you with a session based around your suggestion of a clinical topic.

We will use sources that will both update your information finding skills and provide you with evidence to feed back to your department.

Sources you will learn about include:

NHS Evidence Search E Books and E Journals

TRIP—Turning Research into Practice

Biomedical Databases Including Medline and Cinahl

We will also explain the need an NHS Athens password and how to register for one.

A reflective account for NMC revalidation can be completed at the end of the session and CPD certificate will be issued.

***Sessions will typically last about two hours. Please contact the
Library and Knowledge Service for more details or to book a time
01709 427 139 or extension 7139 or colin.lynch@rothgen.nhs.uk***
