

Evidence for practice

Every month the Library and Knowledge Service will scan the latest published research evidence to bring developments of relevance to general practice to your attention.

[Under-provision of medical care for vascular diseases for people with dementia in primary care: a cross-sectional review](#)

[Inter-arm blood pressure differences compared with ambulatory monitoring: a manifestation of the 'white-coat' effect?](#)

[Cognitive behavioural therapy as an adjunct to pharmacotherapy for primary care based patients with treatment resistant depression: results of the CoBaT randomised controlled trial](#)

[Long term calcium intake and rates of all cause and cardiovascular mortality: community based prospective longitudinal cohort study](#)
