

Evidence for practice

Every month the Library and Knowledge Service will scan the latest published research evidence to bring developments of relevance to general practice to your attention.

[Comparative effectiveness of renin-angiotensin system blockers and other antihypertensive drugs in patients with diabetes: systematic review and Bayesian network meta-analysis](#)

[Effectiveness of telemonitoring integrated into existing clinical services on hospital admission for exacerbation of chronic obstructive pulmonary disease: researcher blind, multicentre, randomised controlled trial](#)

[Effect of Weight Reduction and Cardiometabolic Risk Factor Management on Symptom Burden and Severity in Patients With Atrial Fibrillation: A Randomized Clinical Trial](#)

[Electronic cigarettes for smoking cessation: a randomised controlled trial](#)

[Bariatric surgery versus non-surgical treatment for obesity: a systematic review and meta-analysis of randomised controlled trials](#)

[Efficacy of anti-inflammatory or antibiotic treatment in patients with noncomplicated acute bronchitis and discoloured sputum: randomised placebo controlled trial](#)

[Patient Engagement Programs for Recognition and Initial Treatment of Depression in Primary Care: A Randomized Trial](#)

[Physical and cognitive functioning of people older than 90 years: a comparison of two Danish cohorts born 10 years apart](#)
